VIVID METALS

EXPERIENCE YOUR PHOTOS IN HIGH DEFINITION

High gloss finish showcases color and clarity in a unique contemporary art piece.

Hang Vivid Metal prints with ease using a 3/4" thick Float Mount on the back of the metal itself. The ready-to-hang mount is positioned to meet both vertical and horizontal image orientations

Vivid metals are made from aluminum and will not rust.

To clean your art piece, use a soft cloth or feather duster. We recommend that you do not use chemicals, cleaners, or abrasive cloths on this surface.

BARNWOOD FRAMES

HANDCRAFTED. RUSTIC. ELEGANCE.

Each piece is made by hand and created with reclaimed wood.

Images are printed on fine art cotton rag and finished with a rustic torn edge which is displayed between two transparent layers of acrylic.

Given its weathered nature, variations in the wood are to be expected such as nicks, cuts, and old knots as well as nail holes. We believe this produces a beautiful and distinctive piece. Made in the USA, crafting these frames allows us to salvage beautiful wood that otherwise would have been lost.

CLASSIC CANVAS

WALL DISPLAYS THAT STAND THE TEST OF TIME

The Classic canvas is a white poly-cotton blend matte canvas that meets the archival standards for pH and lightfastness.

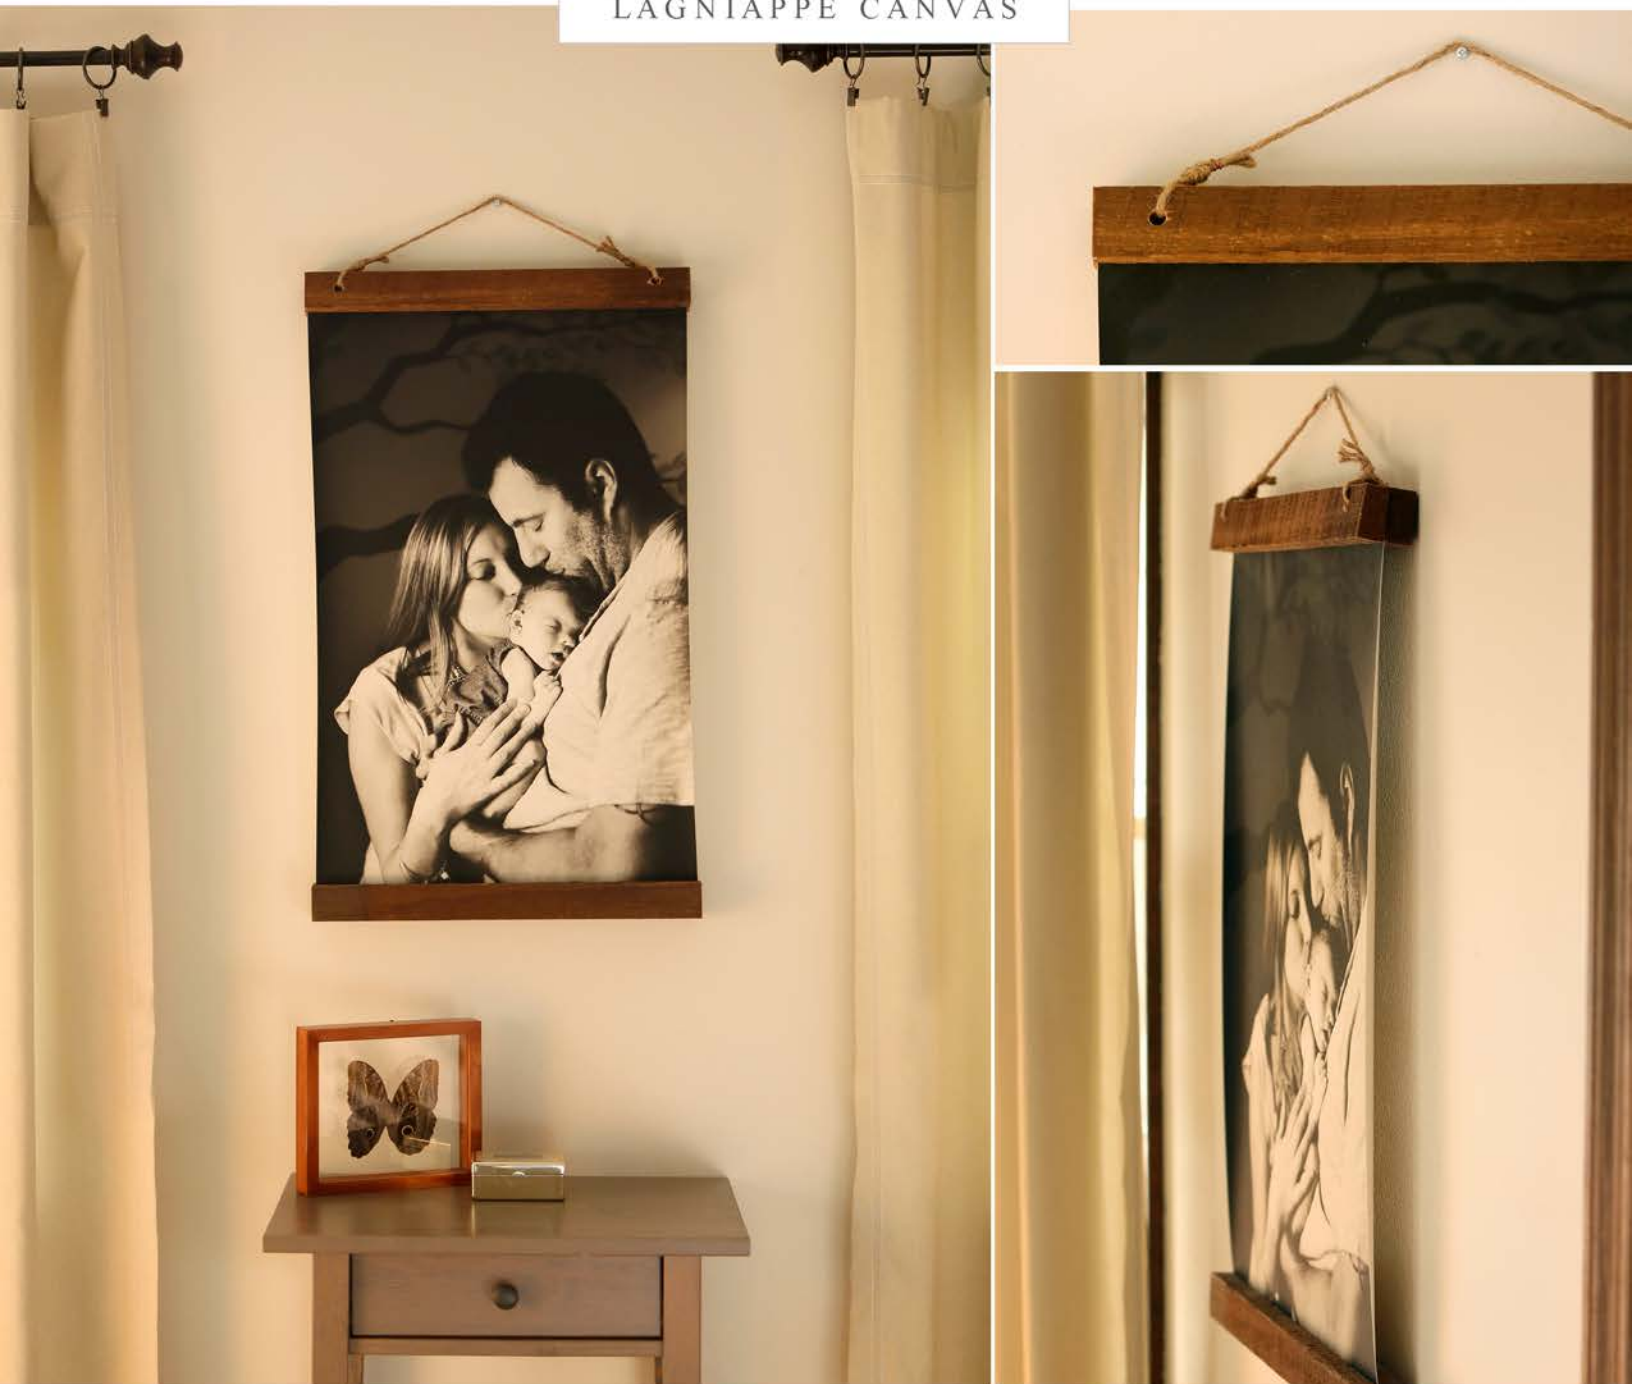

A water resistant finish and heavy, flexible weave add durability. Once printed, each piece is wrapped around a 1.5" or 2.5" stretcher frame and finished off with durable black backing for strength and to seal out dust.

Industry approved for print permanence by the International Fine Art Trade Guild.

Classic canvases are delivered ready to hang with saw tooth brackets for 20x24 and smaller sizes and wire hangers for 20x30 and larger sizes.
